Summary

Pre final-year Computer Science student at SRM Institute of Science and Technology, Trichy, with expertise in full-stack development using MERN stack. Skilled in developing scalable applications like e-commerce platforms and blogging systems, with a strong foundation in data structures, algorithms, and Agile methodologies. Experienced in version control with Git, collaborative team environments, and debugging complex software issues. Eager to contribute to tech world's innovative software solutions by delivering clean, efficient code and staying updated with emerging technologies.

Education

- | | |
|---|----------------------------|
| SRM Institute of Science and Technology
<i>B.Tech in Computer Science, Trichy</i> <ul style="list-style-type: none"> ◦ CGPA: 9.51/10.0 | <i>Jun 2022 – Present</i> |
| Placid Vidya Vihar Senior Secondary School
<i>12th - CBSE, Kerala</i> <ul style="list-style-type: none"> ◦ Percentage: 86% | <i>Jun 2020 – May 2022</i> |
| Labour India Gurukulam Public School
<i>10th - CBSE, Kerala</i> <ul style="list-style-type: none"> ◦ Percentage: 94.6% | <i>Jun 2019 – May 2020</i> |

Experience

- | | |
|---|---|
| Web Developer Intern
<i>PSWS</i> <ul style="list-style-type: none"> ◦ Developed an e-commerce website for local agricultural products using JavaScript, HTML, CSS, and PHP, enhancing user engagement. ◦ Designed and implemented a database for product management, ensuring efficient data retrieval and storage. | <i>Pala, Kerala May 2024 – Jul 2024</i> |
|---|---|

Projects

- | | |
|---|-------------|
| Blogging Platform <ul style="list-style-type: none"> ◦ Built a scalable blogging platform with user authentication, content management, and commenting systems using React, Next.js, and PostgreSQL. ◦ Implemented server-side rendering with Next.js to optimize SEO and reduce page load times. ◦ Utilized Git for version control, enabling collaborative development and code reviews. ◦ Tools Used: React, Next.js, PostgreSQL, JavaScript, Git | <i>2024</i> |
| E-Commerce Website
<i>NGO PSWS</i> <ul style="list-style-type: none"> ◦ Developed a responsive e-commerce platform for local agricultural products using JavaScript, Tailwind, and PHP, improving accessibility for users. ◦ Integrated a database to manage product listings, ensuring efficient data handling. ◦ Tools Used: HTML, CSS, JavaScript, Tailwind, PHP | <i>2024</i> |
| Task Management App <ul style="list-style-type: none"> ◦ Developed a task management application in a team using Agile/Scrum methodologies, implementing features like task assignment and progress tracking. ◦ Wrote clean, maintainable code in Python and JavaScript, integrating with a MongoDB backend. | <i>2024</i> |

- Conducted code reviews and documented processes to ensure team collaboration and project transparency.
- Tools Used: Python, JavaScript, MongoDB, Git

Diabetes Prediction

Oct 2023

- Designed a predictive model to detect diabetes using Python, achieving 80% accuracy on a real-world dataset.
- Applied data structures and algorithms to preprocess and analyze health parameters efficiently.
- Tools Used: Python, Pandas, Scikit-learn, Keras, Matplotlib

Skills

Languages and Technologies: JavaScript, Python, C++, HTML, CSS, PHP, React, Next.js, PostgreSQL, MongoDB, Tailwind, Docker, Git

Methodologies: Agile, Scrum

Concepts: Data Structures, Algorithms, Object-Oriented Programming, Full-Stack Development
